

# Director of Finance

## Description

This unique opportunity goes to the successful candidate who is a results-orientated decision-maker. Are you adaptable to change? Do you like to solve problems? Are you good with financial analysis? Develop your own finance department with this new position. Your success will be rewarded.

You will oversee all business, financial, and accounting activities at this business jet airport. You will be responsible for the development/implementation of state of the art financial/accounting systems and controls. This position directs the financial management program reporting to the Deputy Executive Director.

We are privileged to offer the exceptional candidate an excellent array of benefits that only a private corporation can. *Starting* salary range: \$100,000-115,000 with a dynamite package including relocation, annual bonuses, top tier medical benefits, and numerous others.

Contact ADK Executive Search at: [DirectorofFinance@adkexecutivesearch.com](mailto:DirectorofFinance@adkexecutivesearch.com) for a detailed Position Summary describing the position, location, and submittal requirements. Position closes April 30<sup>th</sup>.

## Requirements

Bachelor's degree required in Finance, Accounting, Airport Management or Business Administration. MBA and/or CPA very desirable. To be considered, you will have ten years experience in public or private financial management with five (5) years experience of increasingly responsible work at a management level in accounting or financial career field, and at least two (2) years in a supervisory capacity at an airport. A.A.E certification is highly preferred.

Must be a persuasive communicator with a management style that is participatory and team-oriented. You will have the ability to analyze complex business operations issues and financial matters in order to make sound recommendations. You will coordinate, direct, and manage the work of others as an experienced and effective team builder.

## Employer Information

This is not your normal municipal airport. We are a private company operating this northeast airport since 1982 under a 99 year lease with the town. All activities at the airport are autonomous and operated solely as a private corporation.

We are well known for our offerings of first-class facilities for corporate flight departments and business aviators. We are one of the top 50 busiest general aviation airports in the United States with approximately 40% of our annual operations conducted by business jets.

In our area, wonderful opportunities exist in education, employment, the arts, and recreation. Adding a comfortable climate for most of the year, excellent medical care, and a secure environment makes this a truly appealing place to work and live. We offer a great diversity of quality stores and businesses available in a warm, friendly and quaint village setting. Our energized downtown is the perfect setting for dining, entertainment, special events and shopping.
