

The Metropolitan Nashville Airport Authority ("Authority") is seeking Proposals from interested firms qualified to conduct a Network Vulnerability Assessment. The project will be for a two-year period, an initial assessment and a follow-up assessment. The selected firm will meet all specified requirements of federal and state laws and regulations relating to the Authority.

Additional information will be available on April 15, 2008 and may be obtained from the Authority's website at www.flynashville.com/business/
