

Join a Team of Global Leaders

*McCarran International Airport
Las Vegas, Nevada*

Cyber Security Engineer (Departmental Systems Coordinator) \$51,376.00 - \$55,473.60 - \$86,049.60

Excellent Benefits Package

The Department of Aviation seeks an experienced professional to develop and implement cyber security related projects, which may include SEIM, Log Analytics, Scanning and Vulnerability management, and Asset Management. Perform technical security assessments of technical systems and projects airport-wide. Requires an equivalent to a bachelor's degree in a closely related field and two years of full-time professional level experience in cyber security. Experience and certifications may be substituted for these requirements so long as six years is documented. For example: OSCP certification is equivalent to two years, GIAC certification is equivalent to one year, SLAE certification is equivalent to one year, Security+ certification is equivalent to one year. Other security-based certifications will be evaluated on an individual basis.
