

**REQUEST FOR EXPRESSIONS OF INTEREST  
CA00383  
CARGO FACILITY DEVELOPMENT**

August 11, 2017

Halifax International Airport Authority (HIAA) is requesting Expressions of Interest from potential development partners for the future cargo lands between the newly developed Apron III and the existing Gateway Cargo Facility at Halifax Robert L. Stanfield International Airport. These lands are the next phase in the development of the cargo node at Halifax Stanfield and will allow for additional facilities to support the cargo logistics chain.

This Request for Expressions of Interest (REOI) is intended to generate initial interest by potential developers. Once the initial submissions are received and screened, successful parties may be invited to submit more detailed proposals moving towards a full contract and land lease with HIAA. Real estate developers looking to build 'to suit facilities' for clients involved in the cargo chain or partner with an operator are welcome to submit proposals as well.

Interested parties wishing to respond to this REOI must provide written submissions by 2:00 p.m., ADT, Monday, August 28, 2017.

To obtain the REOI documents, please contact:
