

Airport Parking Trends and Issues

Darrell Brantley

Business Development Manager – Airports, N.A.

Park Assist

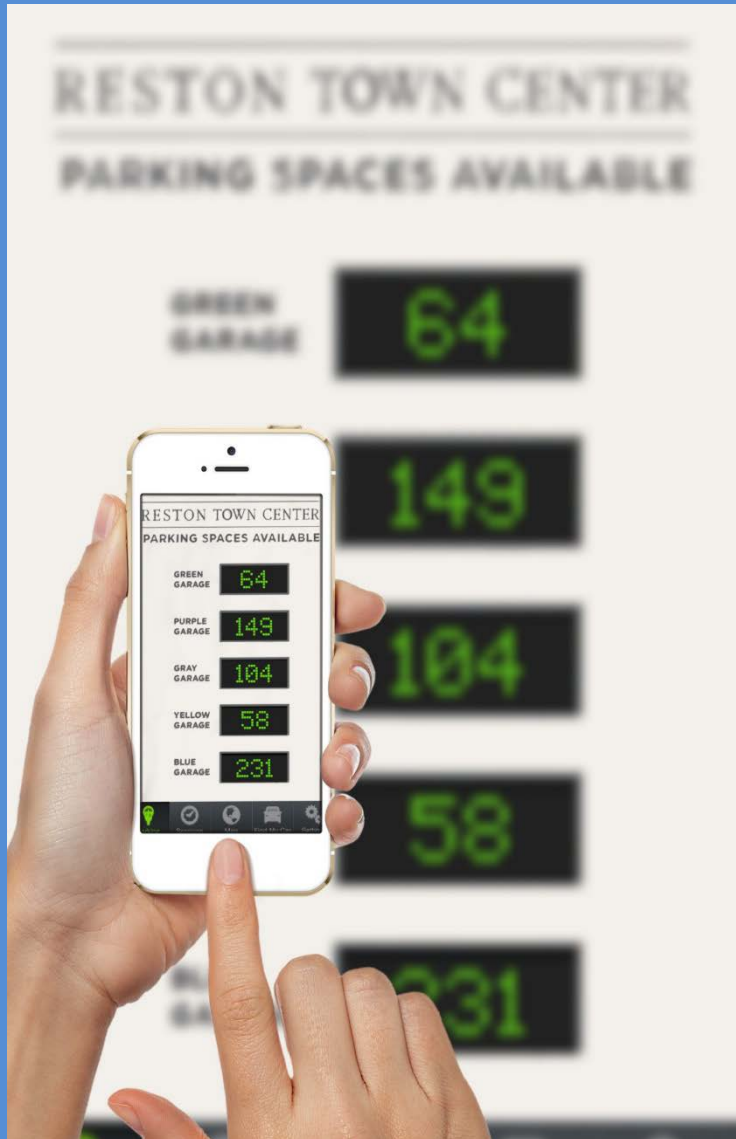

Typical Passenger Trip to the Airport

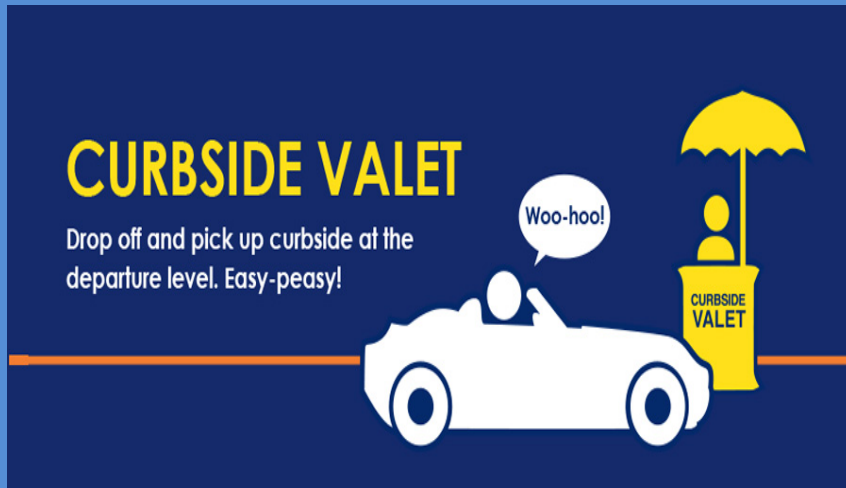

- Grab your bags and load them in the car
- Final check for credentials (ticket, ID, etc.)
- Check traffic conditions for best route
- Find your parking space
- Clear the security checkpoint
- Get to your gate

Customer Wants: Ability to Control Outcome

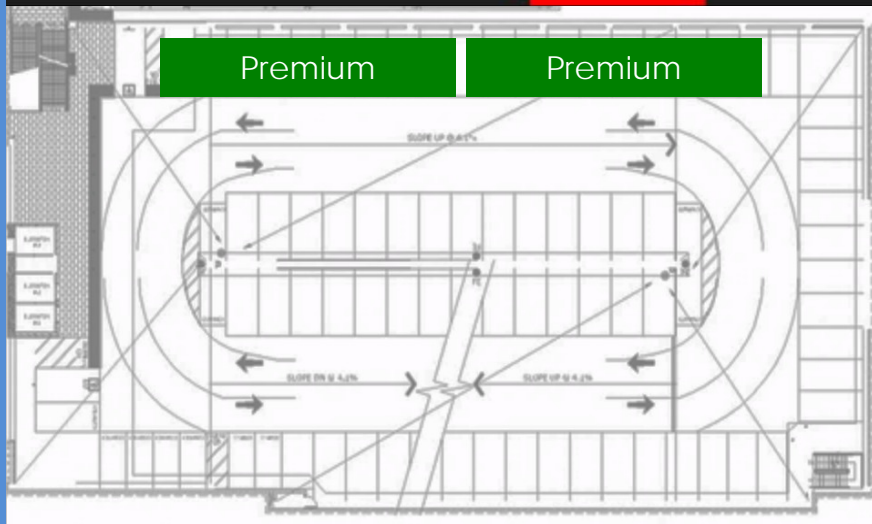

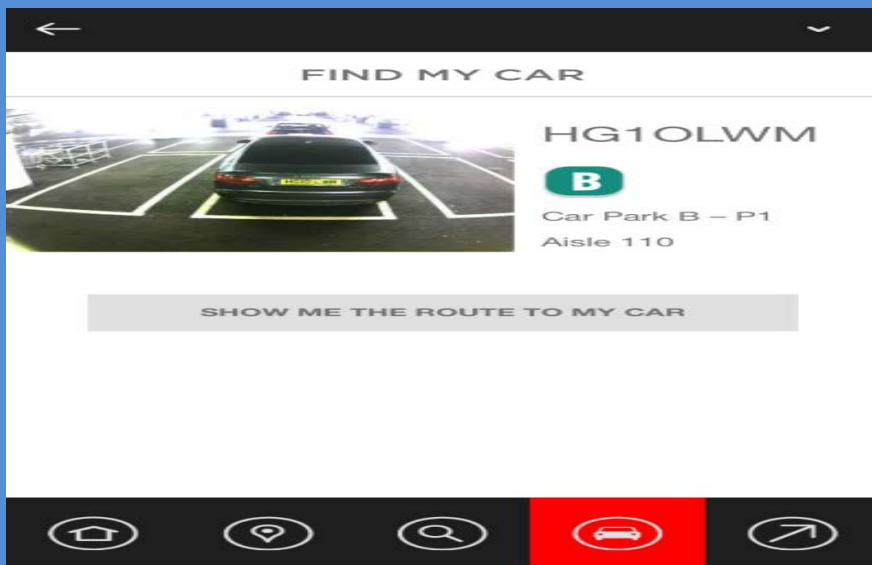

Customer Wants: Speed and Efficiency

A word cloud centered on the word "AUTOMATION" in large red capital letters. The background is white with a faint watermark of a stylized 'FP' logo and a square icon. The words are arranged in various orientations and sizes, with colors ranging from blue to orange. The most prominent words include "AUTOMATION", "workflows", "improve", "versions", "interface", "logistics", "advantages", "machines", "computers", "hardware", "quality", "systems", "tasks", "business", "speed", "production", "precision", "world", "electronic", "modern", "mechanical", "technology", "solutions", "robots", "money", "mechanical", "resources", "costs", "mechanical", "software", "productive", "sensor", "security", "lasers", "jobs", "technology", "modern", "mechanical", "productive", "company", "machine", "logistics", "advantages", "improve", "versions", "interface", "world", "electronic", "production", "speed", "precision", "world", "electronic", "quality", "systems", "tasks", "business", "speed", "production", "precision", "world", "electronic".
