

Environmental Planner/NEPA Specialist (Nationwide)

HMMH has an immediate opening for an Environmental Planner: Senior National Environmental Policy Act (NEPA) Specialist. HMMH is a leading transportation environmental consulting firm in the United States. For 35 years, HMMH has maintained a reputation of technical excellence through our on-going support to various federal agencies, including the Federal Aviation Administration, the Department of Defense, Department of Transportation, and NASA. HMMH actively supports various airport authorities as well as local and state governments that serve as airport operators.

Our Senior NEPA Specialist will provide project management and documentation support for airport environmental projects. Experience performing technical tasks and supporting client relationships to craft solutions that meet and balance both small and large environmental project challenges is a key requirement. The ideal candidate will perform technical analysis to develop and evaluate alternatives, research and write technical reports, prepare NEPA documents, and participate in public involvement processes for a variety of transportation and other projects.

You will be a member of multidisciplinary teams. Assignments are typically well-defined, vary in scope, and are best accomplished by a highly organized, self-motivated, detail-oriented planner with excellent writing skills and both practical experience and working knowledge of NEPA and other environmental regulations. You will contribute to the strategic direction and growth of the environmental practice area and may be expected to work on project proposals, provide business development support, and participate in industry events.

Required education and experience:

- A proven and successful track record in environmental planning, including NEPA environmental documentation and environmental permitting processes
- B.S. in Urban, Regional or Environmental Planning, Landscape Architecture, Environmental Science, or related field is required (MS preferred)
- At least 5 years of related environmental planning experience, preferably in an aviation consulting environment
- Demonstrated experience with NEPA requirements and permitting processes and, mitigation measures
- Project management experience: budget/scope of work; project schedules; technical oversight
- Client interaction and client management experience
- History of meeting project delivery deadlines
- Ability to work effectively in a team environment as well as independently
- Excellent communication skills (verbal and written)
- Proficient user of MS Office products (Word, Excel, PowerPoint); MS Project experience a plus
- Enthusiasm for professional growth opportunities

Please submit a cover letter and resume, references, and writing sample (an electronic link to a published document is acceptable but, if choosing this route, please specify your specific contributions) to info@hmmh.com.
